From the desk of founder director Yeshi Lhundup

Tashi Delek!

It has been five great years since our inception and I am beyond happy to announce that we have grown so much bigger since 2013. This organization was established in the hope that it would be an answer to many of the problems that our communities faced every day. We have attempted to bridge the gap between Tibet and the world through our organization. Our mission has always been maintained in the forefront of our various endeavors and our values of peace, harmony and compassion have grown with our work.

We have been executing H.H. the Dalai Lama's commitment 1) As a human being, commitment is to promote human values 2) As a religious practitioner, commitment is to promote religious harmony 3) As a Buddhist monk, commitment is to preserve and promotion ancient Indian Nalanda Buddhist Culture. 4) As a Tibetan, commitment is to the Tibetan issue.

Our international language classes are popular thanks to our language teaching staffs who have been wonderful in their guidance and our students are growing bigger each year. We have had variety of activities that promotes cohesiveness and a mutual respect for each other's culture and language. Tibet world is where Tibet meets the world and the world meets Tibet. Our vision for the organization is becoming tangible and a reality that was fostered by all of your wonderful love and kindness. I want to thank each one of you who have come to Tibet World and become a part of our journey. Without the support and love from our volunteers, donators, guests, students and staffs, we would not have grown so much. Especially, to Mr. Wilfried Pfeffer and teams of Tibet Kailash House Germany, Australian Tibet Support Group Adelaide Australia Miss Rose Dow and teams, Operation Groundswell and Tumaini Viajes Solidarios and founder of Mr. Jack Restoration Touch USA. I would not have seen my dreams becoming real. We did a wonderful job together!

Our organization had grown much in these five years but our mission has not been complete. We are getting high number of students each year and it is very difficult to accommodate them in small classrooms so we are aiming to move to bigger classrooms in the near future. We need your financial support as well as your expertise in our small organization and all your contribution go directly to the Organization. We have done many things together and we still need to grow more. Our organization is small and we strive to grow bigger, we need much to expand our vision. I hope you will come forward to help us and be a part of our journey to create a world that is peaceful, harmonious and compassionate. Come and join us at TIBET WORLD!

Yours Sincerely

LET'S TAKE A STEP BACK

2013 was when it all began. Living in a small room in Dharamsala, within Mr. Yeshe Lhundup's heart burns the fire to bring a change within the Tibetan community and the world. He wanted a qualitative change that would express the uniqueness of Tibet and how much the world needed such compassionate culture. Mr. Lhundup was able to perceive the many difficulties of the Tibetans living in India, especially Dharamsala and wanted to alleviate the problems existing within the Tibetans while simultaneously helping the world at large.

He noticed that many Tibetans lived in isolation from other societies and were unable to access the modern education and languages which created too many barriers in communication with people near and far. They were unable to connect with other cultures of the world. This realization gave birth to a seed that blossomed into Tibet World, an organization committed to the values of compassion, peace and harmony to alleviate the problems facing many of the Tibetans and others living in Dharamsala.

The organization germinated in Mr. Yeshe Lhundup's room where he single handedly nurtured Tibet World with love, care and time. He was able to gather his first students and volunteers and started his tireless vision to create a platform that would accommodate the world to finally meet Tibet. Tibet needs access to modern education and international languages while the world needs the compassionate values of Tibetan culture. In 2015, Tibet World Charitable Trust (#136) was registered under the 1882 Indian Trust Registration Act.

Since then, the organization has been growing under the love and care of thousands of compassionate people. It has cemented the thought into reality. Their support and nurture has made this seed into a young tree that is growing bigger with each passing year. Our core values, our missions and our visions have remained our goals and we are striving towards a more compassionate and harmonious world together. We are united in a common cause and you stand with Tibet World as we stand for your peace and happiness. In past seven years, we have:

- Provided education to more than 3740 students

Year	2013	2014	2015	2016	2017	2018	Oct-2019
student	314	596	670	594	529	523	514

- Enabled the participation of 2500 volunteers from 55 countries
- Organized hundreds of various of cultural events

On a daily basis, our full-time staff of 10, supported by up to 10 international volunteers, help 150 students pursue their studies English, French, German, Tibetan and Chinese, winter program for school children and various workshop and trains. However, there is a great deal more for us to do because the challenges facing Tibetans in exile continue to be real and pressing.

We have various of cultural events like Tibetan Folk Cultural Show, Buddhism philosophy and political talks, share life stories, show document films, and special workshop on Compassion + Wisdom = Happiness or Peace and Cultural exchange programs etc. Our cultural events raise awareness of Tibet's culture and values and play an important part in preserving them.

DEVELOPING OUR VALUES

COMPASSION: ALL THE ACTIONS OF THE ORGANISATION MUST BE CARRIED OUT IN A SPIRIT OF COMPASSION.

HARMONY: TO UNITE ALL THE PEOPLE IN THE WORLD.

PEACE: WE TREAT OTHERS AS WE TREAT OURSELVES.

The Organization values compassion, harmony and peace to make a better world. We

have had many programs to uphold our motto moreover, we have many activities that promote such values and foster these views on our students and volunteers. We, at Tibet World has been able to organized Educational Tours, fun activities and conferences for our students and volunteers without whom we would not have such a successful year. Throughout the year, our students and volunteers have come to enjoy these fun project as well as educational activities which highlight the importance of our values in respect to our family and society and world at large.

Tibet World arranged a picnic for all the students, staffs and volunteers for a fun getaway. We also collaborated with Mr. Jack and Teams with the distribution of personal water filters and solar light to local people for improving their health and our

environment.

In July, we got to celebrate the birthday of His Holiness the 14th Dalai Lama turning 83. The event was attended by students, volunteers, Hotel guests, staff and other guests from 16 countries. Our Director graced this auspicious event and we had a great day in delighting our guests with the traditional flavor of Tibet. A day filled with prayer, dance and music, good food and lots of fun program. We are happy to organize such wonderful day for our family at Tibet World and other guests. At Tibet World, we appreciate all volunteers who come to support us and it is equally sad to see them leave. We extend our gratitude and thanks to Maria who taught English conversation class at Tibet World for a year. The month of August also heralded the news of the sad passing of former Prime Minister of India, Mr. Atul Bihari Vajpayee. On the 17th

August 2018, we held a small Prayer Virgil for him and we send our condolences to his family and to India.

This year, we especially launched a fundraising campaign for three days with the purpose of raising the issue of Tibet in personal space. The campaign “I Have a Voice” was a powerful delivery of the suffering that

Tibetans have undergone since the occupation of Tibet. We started with a conference on 2nd October 2018 where it was officially inaugurated by Chief Guest Lobsang Dakpa, a member of Tibetan Parliament. Mr. Lobsang Dakpa gave applause to Tibet World for being an inspiration to the community for bringing change. It was followed by Director Yeshe Lhundup’s address on the campaign and the role of Tibet World in serving as the beacon of a change with compassion.

The campaign followed on the next two day with great response. The 3rd October 2018 was the Day of Tibetan Talks where students and teachers shared their stories and how difficult it is to not be able to go back to Tibet. An interactive session with the audience and host ended the day with the sad reality of the Tibetans living in exile. On the 4th October 2018, our Director shared his story –“My Escape from Tibet” and it proved to be a great inspirational story for us all. His story showed us the lost identity of a self in a land that is both foreign and a home. Today, Tibet World is the place where, he says, “The world meets Tibet and Tibet meets the world”. The campaign ended with huge success. The following months we had a small demonstration of Buddhist debates which are a great method to sharpen one’s mind.

It is birthday of Tibet World so we celebrated **10,000 voices** the founding day of Tibet World on 19th October with the honored Mr. Wilfred Pfeffer, President of Tibet

Kailash House and special guest Geshe Lhakdor la, the Director of the Library of Tibetan Works and Archives at CTA, Dharamsala. We give our warmest thanks to all honored guests and the heads from the various NGOs, those from Member of Parliament, students and volunteers for attending the day and making it especially memorable. We also give our sincere thanks to Mr. Greg Robin for being an outstanding support of the organization and being with us from our inception.

We also organized a Treasure Hunt for all who wish to join us and we had around 30 people participating and it was a day filled with good laughter. On 21st October, we had a Hiking day for the students, volunteers and staffs to Triund. It was one of the best ways to practice communal values and our day was filled with sharing, dancing and fun. We stayed overnight and it was one of the most diverting times for all of us. Let us not forget Children's Day which we celebrated for the students, joined by our Director Mr. Yeshe Lhundup and many of the volunteers and staffs. We want to especially thank Mr. Journ Wehrstein from Germany for delighting everyone with his Juggling performance on the 28th November evening. His skill with juggling was a wonderful experience for all of us at Tibet World.

Tibet meets the World, the world meet Tibet World

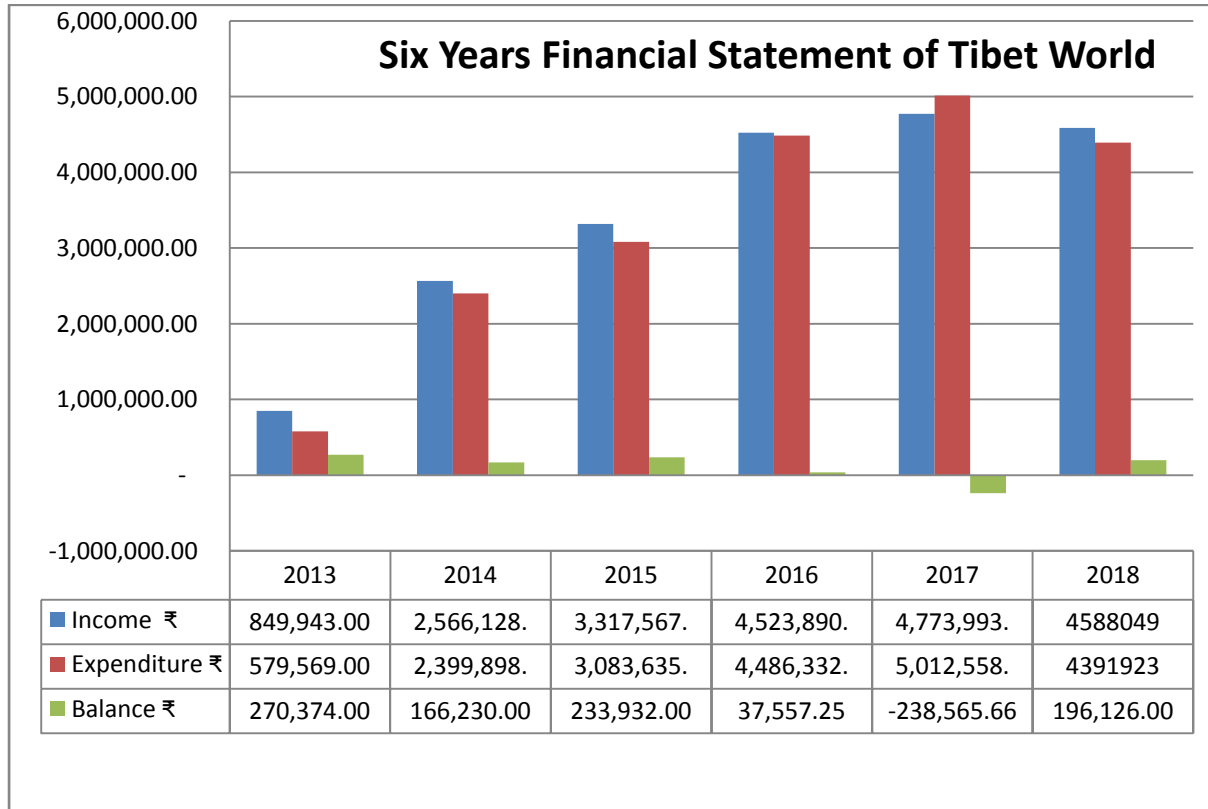

This year, Tibet World came out with a special workshop that focused on the methods of achieving Happiness. It is led by our Director Mr. Yeshe Lhundup with the aim to create a happier and more peaceful world. This workshop explores how we can use our wisdom and compassion to discover Happiness. With all these projects, we are trying to raise the core values of compassion, harmony and to treat others with self-respect in our students and volunteers and of our guests at Tibet World. We have shown that having fun does not go without experiencing the joy of sharing love, compassion and living with respect for each other. We offer our sincere appreciation to all of you who came to Tibet World and enjoyed with us to the fullest.
